

PRESS RELEASE

**Reference:** COVID-19 Novel Coronavirus, Brewster County

On June 24, 2020, Brewster County received confirmation on additional COVID-19 positive cases, bringing the county to a total of 55 cases. The cases range in age from 19-79 years old and most are due to community transmission. The patients have been instructed to remain isolated. DSHS is supporting Brewster County in identifying any close contacts of the patient so they can be isolated and monitored for symptoms.

The Texas Department of State Health Services (DSHS) Public Health Region 9/10 is reminding the public that it is conducting contact investigation on persons who have tested positive to determine possible exposure to others. If the health department has not contacted you, there is no need to take any action at this time.

The Texas Department of State Health Services (DSHS) Public Health Region 9/10 and Brewster County continue to work together against COVID-19. We are vigilant and reporting results for COVID-19 in the region. We are also working together to educate and promote social distancing and staying at home.

In order to share facts and not fear, we continue to emphasize the importance of prevention and there are simple steps everyone can take to help prevent spreading the virus:

- Wear a cloth face covering (over the nose and mouth)
- Practice social distancing by staying at least six feet away
- Wash your hands often with soap and water for at least 20 seconds.
- If soap and water are not available, use a 60% alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Stay at home and stop the spread of coronavirus

The public can find up-to-date coronavirus information and what to do if you're sick, testing information at [dshs.texas.gov/coronavirus](https://dshs.texas.gov/coronavirus)

Sincerely,

Dr. Emilie Prot, DO, MPH  
Regional Medical Director, Region 11  
Department of State Health Services
